

The Shamrock Shield was designed to reduce to reduce excess heat on inner thighs. The Shield fits the Harley-Davidson™ Classic, SoftTail, Electra Glide, Road Glide, Road King, Screaming Eagle and Ultra Classic.

The Shield works only on bikes with stock seats and stock exhaust.

Installation Procedure (4 Steps)

1. Remove the screw that hold the seat.
2. Place the Heat Shield under the seat.
3. Make sure the label is up towards the rear of the bike.
4. Replace seat and tighten screw.

Note: Model 2008 FL - Installation

Bend seat tongue on the bike frame 1/4 inch up; to compensate for the thickness of the heat shield.
